## RECESSIONS FRACTIONAL

Trading Wholly Without Significance and Closing Weak, But Extremely Dull.

NEW YORK, May 7 .- The stock market opening was wholly nominal, so far as the active list was concerned. Only a half dozen stocks were represented, and in them there was no price change. Good dmand for National Lead sent it

best appreciated when it is stated that in the first hour there were only thirtythree stocks in which there were trans-actions of 100 shares or over. The floor actions of 100 shares or over. The floor was largely deserted, and the trading was wholly without significance. Prices as a rule were somewhat drooping, through sheer inertia. In a few instances were the variations in excess of 1/2 or 1/2 per cent. The second hour brought no relief from the intense dullness. Government bonds unchanged. Cher bonds were quiet.

The market declined fractionally at the last and closed weak but extremely dull.

### TRIPLE EXECUTION IN WINCHESTER, TENNESSEE

WINCHESTER, Tenn., May 7.-Henry hanged here for the murder of Simon Bucher and his wife last August.

Henry Judge planned the murder. His motive is said to have been a desire to get rid of Bucher, who had the oversight of some mountain land upon which Judge wanted to trespass for the purpose of stealing timber. He employed Evans and Delp to do the murder.

The Germania Investment Company, of Cincinnati, told of having had a conference at the Postoffice Department with General Tyner, and of stending the most of two and one-half days there.

The New York Metal Exchange, after a lapse of two years, has decided to take up dealings in pig iron warrants again, beginning next Monday. The discontinuance of trading was due to the heavy demand for iron and the consequent decrease in pig iron in the yards, which fell to an insignificant amount. The pig iron stock now, however, has increased heavily, to about 70,000 tons, and the facilities for trading are much better. A further increase in supply is looked for because of the duliness in the iron business.

The next monthly Government crop report will be issued next Tuesday. It will give conditions as they were on May 1. It is generally realized, of course, that this report is likely to make an unfavorable showing for winter wheat, but the optimistic assertion has already been heard that since May 1 these conditions have improved very materially and promise to continue improving so that by May 10, the date of issuing the crop report, any figures compiled as of May 1 will be unimportant. Snow's weekly crop report, issued yesterday, says that there has been a heavy decline in winter wheat conditions since April 1 in all States east of the Misristiane all counties, this report says, is now 74.5 as compared with 90.1 a month ago. This is the lowest May average since 1888. In comparison with the returns of April 1 there is shown a decline of 12 points in Ohio. 20 in Michigan, 19 in Indiana, 6 in Illinois, and 15 in Oklahoma. Kansas and Nebraska gain 1 point each, and Missouri is unchanged. The loss in the Ohio Valley, this report concludes, is the worst in many years.

Interesting features of the trial have been the colloquies between Col. A. S. Worthington, General Tyner's principal counsel, and Major Holmes Conrad, special counsel for the Government. Their keen intellects have been employed in expounding the intricacles of the law as to the admission or rejection of evidence, and Judge Pritchard has shown his mastery of the subject by prompt and clear-cut decisions which have tended much toward expediting the examination of witnesses.

Taking of testimony will be resumed at 10 o'clock Monday morning.

The Only Investments

That do not fluctuate—that possess absolute stability—during disturbed conditions of the stock market or the money market are those secured by first deeds of trust (mortgages) on real estate under conservative appraisement. We try always to keep on hand a limited supply of such investments, in sums of \$600 and upward, bearing interest payable semi-annually at the rate of Five per cent per annum, that we can sell at par and accrued interest. WASHINGTON. The most notable feature of today's trading on the local exchange was the slump in the price of Mergenthaler, which was depressed from 175½ to 173%.

Ranging between these prices, 145 shares were sold, and the closing bid was bill to permit labor unions to conduct 173%, with 174 asked. Predictions were made of further recessions, one going as progress. far as that the stock would sell below

Greene Copper also recorded 200 shares of the stock sold at 15% and 100 at 15%.

Washington Gas maintained the low level to which the past day or two had assigned it, 50 shares selling at 58.
